Profile

Web & Mobile Developer passionate about crafting fast, intuitive, and reliable digital solutions. I turn ideas into polished applications with a sharp eye for detail, strong execution, and a focus on real user needs.

Technical Skills

- **Front-End:** React.js, Next.js, TypeScript, Tailwind CSS
- **Mobile Development:** React Native, Expo, Push Notifications
- **Back-End & APIs:** Node.js, Express.js, REST APIs, GraphQL
- **Databases:** MongoDB, Firebase, Supabase, PostgreSQL
- **DevOps:** Git, GitHub, Docker, CI/CD (GitHub Actions)
- **Code Quality:** ESLint, Prettier

Experience

- **Mobile & Web Developer – Webodrope** *2023 – 2025*
  Worked on both mobile and web projects, building cross-platform applications with React Native and integrating REST APIs with backend services.

- **Mobile & Web Developer – ViralWave** *2021 – 2023*
  Developed responsive mobile and web applications using React Native and Next.js, contributing to UI/UX enhancements and performance optimization.

- **Freelance Mobile & Web Developer** *2020 – Present*
  Delivered custom websites and mobile apps for various clients, focusing on tailored solutions using React Native, Next.js, and modern web technologies.
